This is a very serious alert, and I wish I didn't have to bring it to you, but our mission is to print the truth wherever we find it.

And even when the news is bad, we have to report it!

Dr. Elizabeth Eads is one of America's Frontline Doctors and she warns that millions of Americans are about to have AIDS.

No, not the STD, but functionally the same thing.

Auto-Immune Deficiency Syndrome, and she says it's directly caused by the poison vaxx.

Dr. Elizabeth Eads, a 25-year Florida physician of osteopathic medicine, told USA Watchdog's Greg Hunter on Tuesday that the tripled vaxed are exhibiting signs of AIDS and that she and her colleagues are struggling to figure out how to treat them, as hydroxychloroquine, ivermectin, and other methods like anti-parasitics are having no positive effect.

"Yes, we are seeing vaccine related acquired immunodeficiency in the hospital now from the triple vaxed...It is a vax injury, and we are not really certain how to treat this," Eads said.

"We are kind of throwing the kitchen sink at it...We are trying to use everything we can think of to boost up the CD4 and CD8 counts and reverse this collapse, this calamity of immune collapse. It's very stunning."

Eads went on to explain that the more COVID shots the patients took, the worse their autoimmune and neurodegenerative symptoms appeared, describing the third dose as the "kill shot":

The Kill Shot, the Money Ball or whatever you want to call it. It is just devastating to the immune system, and I'll tell you why. If you look at the recent Stanford study, and I am just going to read a couple of sentences from the Stanford study: 'The spike protein in the CV19 vaccines that everyone is talking about is called the Lentivirus. The Lenti contains a combination of HIV, types one through three, SRV/1, which is AIDS, MERS and SARS.'

*In the Stanford study, the best-known Lentivirus is the human immune deficiency pathogen, which causes AIDS. This is why we are seeing autoimmune and neurodegenerative decline after the Covid 19 (Vax), especially the booster...**It permanently changes the genome of the cell. That is why this is so terrifying to us in the medical community. We just don't know how to attack this.***

"That is what the Spike Lentivirus is. It is made up of HIV and AIDS along with SARS and MERS," she stressed. "That's why the vaccinated and boosted are so sick. That's why they dominate the hospitalizations regarding Covid illness as well."

When asked how bad she thinks the AIDS vaccine injury situation will be several months down the road, Eads said:

I think from April through the summer you're going to start to see more cases diagnosed of AIDS, especially in the 18-39 category. And the categories in the middle, those in their 40s and 50s, probably over the next year you'll start to see immune systems collapse.

I have the full interview for you so you can see the whole thing.

And here's the deal...

She's not the only doctor saying it.

Dr. Zelenko recently said the EXACT same thing!

Dr. Zelenko does not mince words and he just came right out and said it on Clay Clarke's show: yes, the vaccinated have AIDS.

Not HIV-produced AIDS, but make no mistake they have AIDS.

AIDS = Acquired Immunodeficiency Syndrome

And that's exactly what is happening.

Their bodies are losing all ability to defend themselves. That's what immuno-deficiency means.

And it's very scary.

I'll let the doctor explain it himself.

As COVID restrictions are being lifted, many are concerned about another COVID variant developing.

Medical hero Dr. Vladimir Zelenko talks about three ways there could be more variants (transcript is below):

Q: Do you believe there will be more COVID variants?

"COVID-19, which is a virus, has several reasons why variants developed. First is that every virus develops mutations – it gives them survival benefits. So it's natural for some variants to arise that way.

Then, according to world experts like Dr. Luc Montagnier, who won the Nobel Prize in 2008 for discovering HIV. And Dr. Sucharit Bhakdi, who is the world's most published immunologist and Dr. Geert Van Den Bosch from the Netherlands, one of the world experts in immunology. They all said the following: If you vaccinate people during an active pandemic, you are causing evolutionary pressure to make more dangerous variants.

And the third possibility, even though I don't have proof for it, but it is a logical deduction: Since we know that COVID-19 is a manmade bioweapon – so the same people that created the initial weapon could create the variants, as well."

For those who want to be ready for the next variant, Dr. Zelenko has created a special formulation of quercetin, zinc, Vitamin D and Vitamin C that's available without a prescription.

He calls it "ZStack."

As Dr. Zelenko has described in this video, quercetin acts as a “zinc ionophore,” getting zinc into a virus’s cell and inhibiting the virus’s replication.

Dr. Zelenko said:

“Zinc is the bullet – it kills the virus. The only problem is the bullet doesn’t get to the place where it needs to be.

The virus is inside the cell. The enzyme is inside the cell. And the zinc on its own cannot get into the cell. You have a bullet without a gun – useless.

Now, it turns out there’s a class of medications called ‘zinc ionophores’ or a class of substances called ‘zinc ionophores’ – what they do – is they open up a channel, a door, which allows zinc to go from outside the cell to inside the cell.”

Dr. Zelenko’s ZStack:

- Contains Dr. Zelenko’s special formulation of Zinc, Quercetin, Vitamin D and Vitamin C
- Is GMP-certified
- Is proudly made in the USA

“These pills are a great way to get all the supplements. Without them, I have to take seven different pills, which is not fun. These pills are easy to swallow and do not upset my stomach.”

“Thank you Dr. Z for the peace of mind you have brought us.”

“Thank you for providing a comprehensive product that contains all the elements we need. Thank you for standing up for medical health and freedom!”

Dr. Zelenko also just released a second, even stronger product.

It’s called Z-DTOX and it helps your body fight back if you took the poison vaxx and now regret it.
